

## REMOTE LEARNING PROGRAM – FREQUENTLY ASKED QUESTIONS

### 1. Do students need to enroll in their regular school?

Yes. The Discovery Bay Remote Learning program is designed as a supplemental in-person program to assist students in completing their school curriculum. It is not a replacement for the educational program offered by your school district nor do the teachers instruct the school district assignments. This allows parents to work, students to receive academic accountability and learning assistance, physical activity and socialization with peers.

### 2. What supplies do students need to bring?

Students should bring their own laptop, charger, headphones, text books, notebook, pencil, school assignments and face mask. Plus, they will need to bring their own nut-free lunch, snacks and water bottle. We do have automatic water bottle refilling stations.

### 3. Do students receive help with logging in for their session, homework and help in turning in their assignments?

Yes, each classroom features a highly qualified teacher who will assist students with their online assignments, provide academic support as needed, and monitor student's progress with weekly progress reports provided for parents.

### 4. Who's watching/instructing my kids?

Discovery Bay is a licensed childcare and Learning Academy. Each of our instructors have professional experience in childcare, and many have educational certificates.

### 5. What if my child just needs some extra tutoring?

Discovery Bay offers many highly-qualified tutors and educators who are available for all school subjects. Tutoring may be scheduled by the hour and takes place onsite at PRO Club Bellevue. 1:1 tutoring is \$60/per hour or Small Group (up to 5) is \$30/per hour/per person.

### 6. What type of physical activity will my child receive?

PRO Club is a world-class health club with over 460,000 square feet of space. Our sports and camp coaches will provide a variety of sports and fitness games throughout the Pavilion, sport courts and outside at Grasslawn Park or the VFW Hall across the street. Most physical activities are programmed from 3-5 p.m. after school, but physical activity breaks will also occur throughout the day to give students an active break.

### 7. What specific enrichment activities do you provide?

Our full day program includes our STEAM (science, technology, engineering, art and math) enrichment activities as well as physical activity inside and outside, depending on the weather and available space. These activities are scheduled from 3-5 after school assignments are completed. Some breaks for physical activity are incorporated within the school day to give young minds an active break. Socially distant games and activities will be in the curriculum for the time periods during the day when their school is not providing virtual instruction.

**8. My child doesn't sit all day. What other activities will there be to do?**

We understand kids need to be active. Our daily schedule includes socially distant games and activities for various time periods during the day when their school is not providing virtual instruction. Plus, we've set aside after school time for physical activity and enrichment.

**9. Are face masks required?**

Yes. All students, teachers and employees of PRO Club are required to wear face masks. Children are not required to wear face masks during physical exercise, but coaches are. Also, every individual is health screened and temperature checked prior to entering the building each day.

**10. What is the daily schedule?**

Once we know what the school district virtual learning schedule is, we will be available to provide a more detailed schedule.

**11. If we enroll, are we committed for the entire year or can we stop at any time?**

Our program is a monthly enrollment program. You may stop at any time, but will not receive a refund for unused days unless regular school resumes in-person. A 30 day cancellation notice is required.

**12. Can I enroll after the month has started?**

Our classrooms have limited space. If there is space available, you may enroll your child at any time for a pro-rated amount for the remainder of the month. Our monthly enrollment ensures that we have appropriate staffing, physical distancing, and supplies to operate our programs.
